Position

Enterprise Systems Engineer (local)

Background

The Civil Service Commission (CSC) of Maldives seeks a dynamic, self-driven, well-organized, and passionate individual to join the information system team. The appointed staff member will collaborate with the software development teams to improve the information system within the Civil Service Commission

Overall Responsibilities

Enterprise Systems Engineer will develop new software and develop new software modules for existing software with the software development team at the Civil Service Commission.

Scope of Work

1. Triage product or system issues and debug/track/resolve by analyzing the sources of issues.
2. Participate in continuing education and training to remain current on best practices.
3. Take lead on projects, planning, training, and documenting technical specifications as needed.
4. Collaborate in a team environment to share best practices, implement process improvements, and ensure software quality.
5. Resolve software related issues and provide solutions.
